NAME

    ltfs_copy - Copy Tool for LTFS

DESCRIPTION

    libltfs is a C library implementing LTFS version 2.5.1 as defined by SNIA, also standardised as ISO/IEC 20919:2021. This is vendor-neutral and provides the classic **ltfs** and **mkltfs** utilities, as well as additional **ltfs_check** and **ltfs_copy** utilities.

    The **ltfs_copy** utility allows to copy folder and files from and to an LTO cartridge formatted with LTFS.

    The **openLTFS** package includes the **libltfs** library and its associated **ltfs**, **ltfs_check**, **ltfs_copy** and **mkltfs** utilities, as well as the **openltfs** command-line interface.
